

Board of Directors Candidate Joseph Pfizenmayer

I have been a member of the public sector fire service for well over 40 years. Serving in volunteer and combination departments. I have held several elected and appointed positions over the years. I have been a chief fire officer, Fire Marshal, President of several Associations on a county wide level and also formed a county wide fire marshal's association. I have been a career fire marshal in two different municipalities. I have been involved in fire investigations since the early eighties. I am a current member of the International Association of Arson Investigators as well as the Pennsylvania Association of Arson Investigators, along with several other national and international fire service associations. I am currently serving on the PAAI Board of Directors.

I lead by example and maintain an open mind regarding issues until all of the information is available, much like a fire investigation. I believe in empowering others to do their best and assist them to find the tools and information to be successful. I will encourage all members to share their ideas and thoughts with all our membership.

Simply put the PAAI's aim and mission is to identify, develop, and provide meaningful training programs on an affordable basis and in a timely fashion to meet member's needs.

I think that any organization that is not growing is dying. Let's not die.
