Call the hotel to make reservations**

Saturday April 27, 2024 (08:00 – 17:00)

Fuel Gas Appliance Fires and Explosions

8 hours

**Bert Davis, P.E.
Romualdi, Davidson, and Associates (RDA)**

This presentation will review the properties of natural gas and propane and common fuel gas devices, appliances, and systems. Pennsylvania fuel gas codes and standards will be reviewed. Students will be introduced to schematic drawings for fuel gas systems and appliances relating to investigations. The presentation will then move to the investigation of natural gas and propane incidents and explosions. A hands-on section of this presentation will review varied fuel gas devices, items, and equipment. The presentation will conclude with case studies related to this presentation.

Sunday April 28, 2024 (08:00 – 12:00)
